

Remote Migration Service

Your Technology Ally

Simplify your transition to the cloud with Cbeyond's Remote Migration Service. It's the easiest way to get up and running without risking downtime or disruptions to your business. Remote Migration Service is a one-time offer designed to speed your transition to Cbeyond's cloud.

What We Do

- Initial phone consultation to determine project scope and process
- Set up and administer users
- Enable file sharing with your on-premise computer
- Move software applications and data
- Set up connections to the applications via FTP, Web access, etc.
- Instruct you on remote access best practices

Once the initial migration is complete, you will have exclusive access to your data and applications.

Your Ongoing Role

- Complete management of data and applications that reside on the cloud server
- Create and manage connections from your cloud server to external networks
- Troubleshoot applications and configuration issues
- Manage regulatory requirements under HIPAA, PCI, SOX, etc.
- Manage users, groups and permissions

Cbeyond's Ongoing Role

- Apply operating system patches and upgrades
- Monitor server 24x7x365
- Maintain enterprise firewall, antivirus software and intrusion protection
- Perform nightly backups, depending on your server plan
- Troubleshoot root operating system issues not related to your configuration
- Log server usage statistics
- Manage server warranty

We are Microsoft Hosting Experts

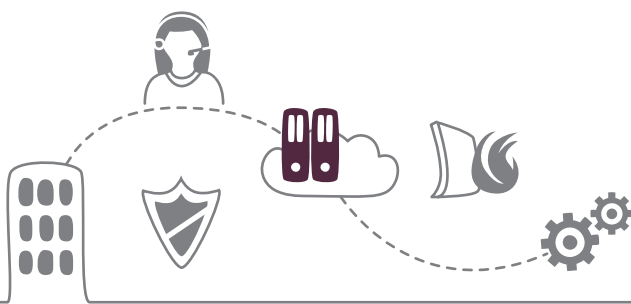

Cbeyond is the only company to win back-to-back Microsoft Hosting Partner of the Year awards for our innovation in cloud computing. Our cloud platform is built using the Windows technology you already know, eliminating the learning curve for your IT staff.

Onshore Support 24x7

If you have questions, you can talk to one of our certified engineers or developers who will resolve your issue quickly.
